

# Digital Photo Albums in PowerPoint 2007

1. Take pictures with your digital camera and save them on your computer
2. Open PowerPoint
3. Click the INSERT tab, then click the PHOTO ALBUM icon
4. Click the FILE/DISK button
5. Navigate to the place where your pictures are saved
6. Click the picture you want use and then click the INSERT button
7. Click the FILE/DISK button again and select another picture to insert. Continue inserting pics until all of them appear in your picture list

8. Click on the picture names in the list and use the icons to make necessary modifications
  9. If you need to remove any pics, click on the name and then click the REMOVE button
  10. When all pics are inserted, select a picture layout and frame shape
  11. Click CREATE to finish your album
12. To make changes, click INSERT tab, then click the little arrow under the PHOTO ALBUM icon and select "Edit Photo Album"
